Section 6- HEALTH HAZARD GUIDE

MAJOR EXPOSURE HAZARD
☐ Inhalaion  ☐ Skin  ☐ Skin Absorption  ☐ Eye Contact  ☐ Ingestion

EFFECTS OF OVEREXPOSURE

INHALATION: May be harmful if inhaled. Good industrial hygiene practice suggests limiting exposure to all respirable particulates.

INGESTION: Evidence suggests low toxicity potential due to poor absorption by the oral route.

SKIN CONTACT: Evidence suggests low toxicity potential due to poor skin absorption.

EYE CONTACT: May cause irritation.

OTHER: Has anticoagulant effect when given intravenously.

EMERGENCY & FIRST AID PROCEDURES

INHALATION: Remove from exposed area to fresh air immediately; keep warm and quiet, give oxygen if breathing is difficult. Get immediate medical attention.

INGESTION: If swallowed and victim is fully conscious, induce vomiting.

SKIN CONTACT: Remove contaminated clothing. Wash affected area with soap or mild detergent.

EYE CONTACT: Flush eyes with lukewarm water lifting up the upper and lower lids for at least fifteen minutes. Seek medical attention.

Section 7- SPILL OR LEAK PROCEDURES

SPILL OR LEAK PROCEDURES
Eliminate all sources of ignition. Evacuate area. Wear protective gear. Sweep into appropriate container. Avoid creating dust. Do NOT use “shop vacuum”, may cause fire.

WASTE DISPOSAL METHODS
Observe all federal, state and local regulations when storing or disposing.

Section 8- SPECIAL PROTECTION

RESPIRATORY:
In dusting conditions, use a NIOSH/MSHA approved dust mask.

VENTILATION
Provide adequate ventilation. Use local exhaust as needed to maintain airborne exposure below control limits.

EYE PROTECTION & PROTECTIVE CLOTHING
Use safety glasses with side shields or chemical workers dust proof goggles (under dusting conditions). Wear work clothing and gloves. Maintain a sink, safety shower & eyewash fountain in the work area. Have oxygen readily available.

Section 9- SPECIAL PRECAUTIONS

Store in a cool, dry place in tightly closed container. Store away from oxidizers and other materials listed under incompatibility. (Section 5) Store under argon or other inert environment. Avoid breathing dusts. Avoid direct or prolonged contact with skin and eyes. Wash hands thoroughly after handling. Do not eat or smoke in work area.
